+923200424149 | hafsamurad2022@gmail.com | [linkedin.com/in/hafsa-murad-a9564430b](https://www.linkedin.com/in/hafsa-murad-a9564430b)

Motivated third-year Computer Science student with hands-on development and networking experience. Completed a PHP internship building a full-stack e-commerce platform, and earned a Cisco Networking Academy certification in cybersecurity. Currently expanding expertise into networking fundamentals — TCP/IP, subnetting, routing, and switching — with practical experience in Cisco Packet Tracer. Eager to contribute as an aspiring **network engineer** or **software developer** in an internship or entry-level role.

EDUCATION

University of Education, Lahore

BS Computer Science — 3rd Year Completed | **CGPA:** 3.19/4.0

Lahore, Punjab

Expected May 2027

Relevant Coursework: Programming Fundamentals, Object-Oriented Programming, Data Structures, Computer Networks, Database Systems, Operating Systems, Compiler Construction, Artificial Intelligence

Activities: Participant, 2nd International Conference on Recent Advances in Computer Science and Information Technology (RACSIT)

PROFESSIONAL EXPERIENCE

Punjab Information Technology Board (PITB)

PHP Development Intern

Lahore, Punjab

Jan 2026 – Apr 2026

- Developed a full-stack e-commerce website featuring product listings, user authentication, shopping cart, and order management using PHP, MySQL, HTML, CSS, and JavaScript.
- Built a CRUD-based management system with complete create, read, update, and delete operations on a MySQL relational database.
- Implemented an MVC-like architecture achieving clean separation of business logic, user interface, and database operations for maintainable, scalable code.
- Gained practical experience in server-side scripting, form validation, session management, and secure database querying.

PROJECTS

E-Commerce Web Application | PHP, MySQL, HTML, CSS, JavaScript

- Designed and built a fully functional e-commerce platform during PITB internship with product catalog, cart, user authentication, and admin order management.
- Structured the application using MVC design principles for modular, maintainable code suitable for production deployment.

TECHNICAL SKILLS

Programming Languages: PHP, HTML, CSS, JavaScript, Python (familiar)

Databases: MySQL (CRUD, relational schema design)

Networking: TCP/IP, subnetting, routing & switching fundamentals, Cisco Packet Tracer (network design & configuration)

Operating Systems: Linux (command-line, file management, system operations), Windows

Tools & Platforms: Git, VS Code, XAMPP, Cisco Packet Tracer

Concepts: OOP, MVC architecture, CRUD operations, data structures, algorithms, cybersecurity fundamentals

CERTIFICATIONS & PROFESSIONAL DEVELOPMENT

Introduction to Cybersecurity — Cisco Networking Academy

May 2026

- Covered cybersecurity basics, common threats and vulnerabilities, personal and organizational data protection strategies, and cybersecurity career pathways.

Currently Pursuing: Cisco Networking Fundamentals — working toward CCNA-level knowledge in routing, switching, and network infrastructure
